

## Membership

The only requirement for membership in NHS is being single. There are no membership dues or fees & you do not need to be a member of FUMC. When you join, you can elect to be added to the class email list for updates on activities & class news.

In January the class database is updated & each member is asked to re-enroll. If you have not re-enrolled this year, please fill out a form with the membership officer at the table in the back of room 350. For membership information, contact:
